PADDLES

The paddles are made from first - class epoxy resins, fiberglass, kevlarcarbon or high modulled carbon fabrics. The blades are in sandwich construction, gives high rigidity and solidity with a low weight. They are made with chemically and mechanically treated metal tips.
 Blades in version "CLUB" are made of fiberglass fabric with limited carbon reinforcements. They are enough solid for all common use. Blades "RACE" contain - 45% of aramid-carbon, -45% of fiberglass and -10% of carbon. Blades "ELITE" are top products with the highest possible parameters, made of carbon and aramid-carbon fabrics. It is the best you can get. By an individual order they can be made without the metal tips, for top and exceptional competetion e.g. (-8, EUR)
 When paddles are sold assembled (blade joined to the shaft) there is a full guarantee for the joint between the shaft and blade.
A guarantee can not be given for the area of the assembly if paddles (blade and shaft) are assembled by the customer and especially any guaranty is not given in any case if hot melt glue is used as an adhesive, as high temperatures can damage the shaft and the blade. Even after long periods of usage, a hot melt glued joint can break easily.

KAYAK BLADES

price for 1 pair of blades EUR

W 001	Burton	Medium	47,5 x 16,5 cm	WILD WATER	version CLUB	89,-		
W 002		Large	49,0 x 17,0 cm

price for 1 piece EUR

W 016	Prest		46,5 x 20,0 cm	version CLUB	59,-
W 017	Benny	Large	49,0 x 21,5 cm	version RACE	79,-
		Medium	47,0 x 20,5 cm	version ELITE	109,-

SHAFTS

W 101	Alu Ø 30mm, anodised, plastic grips, 1250 mm, ~320grs				22,-
W 102	Fiberglass Ø 28 or 30 mm, 1200 mm, ~260 grs, various colours			K1	35,-
W 103	Carbon Ø 28 mm, Soft, Medium, 1200 mm, ~190 grs			K1	59,-
W 104	Carbon Ø 30 mm, Soft, Medium, Stiff, 1200 mm, ~190 grs			K1	59,-
W 105	Carbon Ø 30/25 mm, Medium, conic, carbon or kevlarcarbon, 1000 mm, ~180 grs			C1	57,-
W 106	Split Fiberglass shaft Ø 28 or 30 mm (fiberglass shaft and adjustable joint inside, no clamp)				45,-
W 107	Adjustable Fiberglass shaft Ø 28 or 30 mm - complete set (fiberglass shaft and adjustable joint inside, steel clencl clamp)				69,-
W 108	Split Carbon shaft Ø 28 or 30 mm (carbon shaft and adjustable joint inside, no clamp, weight +60 grs)				75,-
W 109	Adjustable Carbon shaft Ø 28 or 30 mm - complete set (carbon shaft and adjustable joint inside, steel clencl clamp, weight +80 grs)				99,-
W 201	Clamp for clenching, stainless steel, incl. allen key screwdriver No 2,5				36,-
W 202	Joint fiberglass adjustable for shafts 28 or 30mm				18,-
W 203	Joint carbon adjustable for shafts 28 or 30mm				22,-
W 204	Oval plastic in addition for round shaft, (1 free for a shaft without an oval fitted)				3,-
W 205	Grip cylinder wood, (pure wood - no coat)				4,-
W 206	Grip keg wood, (pure wood -no coat)				4,-
W 308	Grip cylinder PP carbone				8,-
W 309	Grip shaped wood (wood with a wax-coat)				6,-
All shafts come with an oval fitted in the wall of the shafts or plastic oval fixed from outside. It is possible to addapt a stable shaft (used, older paddle etc.) to the split or adjustable one. Please order the kind of the shaft exactly by this list.					
W 301	Prepreg carbon shafts				from 68,-

ASSEMBLY OF THE PADDLE

	Sticking up blades to shaft, canoe blade and handle.				
	By your choosen blades, shaft, length, right, left, angle of blades, gripp etc.			K1, C1	10,-
	Assembly of canoe blade only (grip free)			C1	5,-

USED SYMBOLS: FG - FIBERGLASS FABRIC, K - KEVLAR, KC - KEVLARCARBON, C - CARBON FABRIC, S - SANDWICH COMPOSITION (COREMAT, R SPHERETEX), FOAM - SANDWICH FOAMS (AIREX, HEREX ETC), D - DIOLLEN
 COMPOSITIONS OF THE BOATS ARE OVERSIMPLIFIED, FOR C1 AND C2 ARE SIMILAR. IN VIEW OF THEIR DIFFERENCES.
 * Weight of kayaks is without seats + thighbraces (~400g), weights of canoes with a fin, without a sitting.

Instalation and fixing of a seat - thigh braces in K1	20,-
Instalation of ALU movable footrest	free
Instalation of a composite footrest W 407 (by the given distance from the seat)	20,-
Coloured deck - 1 - 2 colours free, 3rd and each other colour	+10,-
Reduction for K1W - LIZARD in all classes	- 2%

Methods of payment:	
- cash on delivery (preferred way), bank transfer before delivery	see basic prices
- bank transfer after delivery, cheque before delivery	+1%
- cheque C.O.D. or after delivery	+2%

TERMS AND CONDITIONS OF DELIVERY AND PAYEMENT
All mentioned prices are ex works, incl. 19%VAT Czech Republic, without transport costs. These details can be worked out with the producer. Paddles can be shipped by mail, boats by a transport firm. Any advance is not required, during your order or before a production. Preferred way of the payment is cash on delivery. If the payement is by cheque, an addition of 2% will be calculated. The goods is sold with a complete world wide guaranty. Mentioned weights, dimensions are subject to correction. Dimensions, performances and weights (at the boats in higher classes) of the boats respect valid international or national rules.

Offered models - see enclosed catalogue. Other possible models by your demand.

All the models in the same category have got the same prices, except for **KI W - LIZARD**.

Our philosophy is to offer complete line of the products, for simpler performances (but with solid qualities and not the cheapest at any price) through boats in high racing level (Vth, VIth class, our the most wanted performances) to absolutely top products for the most discriminating competitors (see VIII class). These boats are used by more world leading competitors.

All boats IV and more are made of top level epoxy resin **LH 160** (with an official certificate for demanding application e.g. in aircraft industry), boats I - III of common class epoxy resin. All boats are heat curred in a box 24 hrs in higher temperature, so they have got higher solidity, rigidity and resistance.

Kayaks can come with a seat, thigh braces and bolts not installed and fixed, or you can order to get it installed. KI and C 1 boats have crossed walls of styro-foam in the bow, kayaks class VII - VIII without any styrofoams. C2 boats have crosses of the styro-foam fixed in the box, in the middle and in the back. C2 Plastic fin in the rail by an individual order, standard is composite fin fixed by kevlar from the outside.

All C1 have got standarty a slot embeded in their backs, where is a plastic or metallic fin installed already (30x3,5x0,5 cm CI) All C2 boats come standarty with a very hard and tough composite fin, fixed from outside (not in any rail), plastic or metallic fin in the rail by an individual order.

All the boats come with external seam tapes (from Ist to IIIrd claass with a diolen tape with colored coat, IVth class and higher with a kevlar seam tape, uncolored coat). Colored deck is in the basic price, as well as remainders of fabric for outfitting, reparations. Possible colours: dark, light, medium blue, yellow, red, dark red, purple, violet, green, pastel green, mint turquoise, white, grey, metallic coloured flakes.

Price reduction for larger quantity of boats: 1 boat...basic price, 2 boats...less 2%, 3 boats... less 3% etc., most 6%. It is meant for a purchase from one person (club) in one time.

Our paddles, boats and accessories for flat water sprint & marathon - see our separate „green“ price list.

Warning:

Epoxy resins are sensitive to a heat, despite heat treatment. Boats 2-3 weeks old should not be in direct sun and should not be tightly tied on your vehicle or trailer in the sun. It is better to stay out of the sun or to slacken the ties a little. After app. 1 month, the epoxy is better, but the danger of damage from ties continues. Producer is not responsible for damages from a heat or sun shine.

CLOTHING AND OTHER EQUIPMENT BY ZASTERA COMPOSITES				EUR
W 501	Spraydeck Rubber K1	universal size. Blue, black, yellow		38,-
W 502	Spraydeck Nylon K1	universal size		28,-
W 503	Spraydeck Neopren, K1, C1, C2	size S, M, L, XL		68,-
W 504	Cockpit cover nylon K1 + C2, C1			12,-
W 505	Cockpit cover neoprene			32,-
W 506	TROPIC paddle cag	short jacket.		56,-
